You have the idea, we have the sports floor. Our passion is to develop innovative products for special requirements and to provide solutions. Please contact us. We are ready to help planning your project!

Olympic Stadium Berlin
The **REGUPOL** track in Berlin's Olympic Stadium. Since the 2009 World Championships in Athletics also known as "the blue wonder of Berlin". Built in 1936, the stadium can look back on over 80 years of sporting history. Since 2004, competitions have been held on the blue **REGUPOL** athletic track.

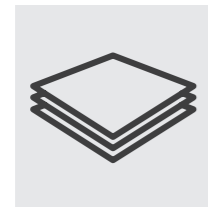

OUR FLOORS FOR TRACK & FIELD

fast, seamless, durable

For decades, we at REGUPOL have been a reliable partner for the manufacture and installation of high-quality, durable running tracks and a number of other synthetic surfaces for track & field athletics.

No matter which surfacing system, whether for new construction or renovation: **REGUPOL** prepares the ground for top performance in athletics. It is ensured by the right balance between speed, impact resistance and force reduction. It helps athletes get the best out of themselves while also providing maximum protection and safety. Our seamless **REGUPOL synthetic running tracks** are versatile, durable and suitable for any level of competition. They have been installed in both, large stadiums and school sports facilities around the world.

Systems

seamless | spike-resistant | durable

Our products: REGUPOL elite PUR, REGUPOL champion AG, REGUPOL champion AGI, REGUPOL champion AGM, REGUPOL champion AGF, REGUPOL champion FL, REGUPOL challenger PD, REGUPOL challenger PDI, REGUPOL challenger PDF, REGUPOL challenger FL

Our running tracks are manufactured and installed according to the strict requirements of the international athletics association World Athletics (formerly IAAF) and the applicable standards EN 14877 and DIN 18035-6 as well as the quality regulations according to RAL GZ 943. Therefore they are suitable for competition on the highest international level as well as for school and recreational sports.

REGUPOL running tracks with 4.0 technology

With the application of our innovative 4.0 technology, we achieve the cost-saving elimination of a complete work step in the installation of **REGUPOL champion running track** surfaces. The constant physical properties of our **REGUPOL champion tracks** due to our manufacturing technology remain unchanged. We save you time and money.

OUR FLOORS FOR MULTIPURPOSE COURTS

multifunctional, seamless, durable

REGUPOL should come into play where different sports are practiced and games are regularly held. Our REGUPOL sports floors combine playing comfort with a high protective function for athletes. At the same time REGUPOL floors score in terms of durability and robustness.

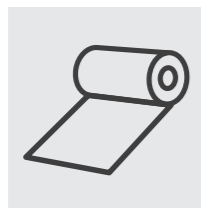

For small sports pitches and multifunctional areas: **REGUPOL playing court surfaces** are highly versatile. Also, **REGUPOL shock pads** provide for the required elasticity and shock absorption when used under synthetic grass. Whether prefabricated rolls or elastic layers installed on site: **REGUPOL** provides for the right force reduction, elasticity and ball reflection.

Systems

seamless | versatile | durable

Our products: REGUPOL multicourt DL, REGUPOL multicourt SL, REGUPOL multicourt DLX, REGUPOL multicourt AF, REGUPOL multicourt PUR, REGUPOL multicourt FL

resistant | durable | elastic

Our products: REGUPOL multicourt kombi, REGUPOL multicourt uni

Shock pads for synthetic turf

permanently elastic | durable | uniform

Our products: REGUPOL turfpad SP, REGUPOL turfpad EL, REGUPOL turfpad ET

Our playing court surfaces are manufactured and installed in accordance with the applicable standards EN 14877 and DIN 18035-6.

Our elastic layers for synthetic grass meet the applicable standards EN 15330 and DIN 18035-7 as well as the quality and testing regulations according to RAL GZ 944.

REGUPOL multicourt PUR

With our state of the art playing court surface **REGUPOL multicourt PUR** we combine the advantages of a traditional point-elastic **REGUPOL** sports hall floor with the requirements of an all-weather surface for outdoor areas. The prefabricated **REGUPOL base mat** is seamlessly coated with a high-quality, solid, wear resistant non-slip polyurethane wearing surface. **REGUPOL multicourt PUR** is seamless, easy on the joints, low maintenance and extremely durable, even in high intensity, multi-purpose use.

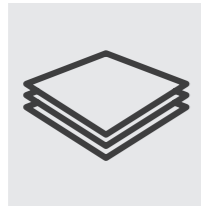

OUR FLOORS FOR ATHELTICS HALLS/ FIELD HOUSES

fast, seamless, durable

REGUPOL is your source for the right "training equipment" in athletics halls/field houses. We also have decades of experience in sports floor construction of indoor facilities.

REGUPOL synthetic running tracks can be found in many large athletics halls/field houses. From us you get exactly the sports floors you need. Track ovals with or without raised curves, pole vault, long- and high jump facilities or portable running tracks for temporary use: we master all disciplines. We know how to make great floors. That's why we also supply suitable sports floors for fitness facilities in your athletics hall/field house. Our **REGUPOL** experts will be happy to consult.

Our products: REGUPOL champion AG, REGUPOL elite PUR, REGUPOL sportrack AG, REGUPOL sportrack AGF

” I ran my world records on a **REGUPOL track**. The fastest track surface in the world.

Usain Bolt is advertising partner of REGUPOL

The exceptional sprinter can look back on one of the most fascinating careers in modern sports history. With his authenticity and credibility, he stands for performance, speed and success – just like our **REGUPOL** synthetic running tracks. Usain ran two world records on the blue **REGUPOL** track in Berlin's Olympic Stadium in 2009.

MAKING UP GROUNDS WITH REGUPOL

ATHLETES' AND COACHES' VOICES

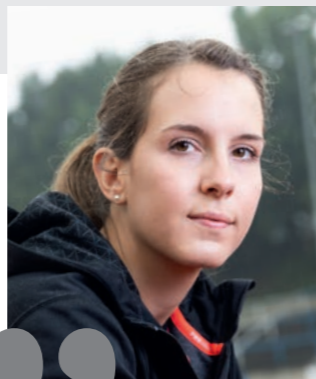

REGUPOL running tracks and **sports floors** hold a top position internationally among the floors that mean the world to many athletes. **REGUPOL** offers the ideal floor for competition and training.

Thomas Eickmann
Sports Director and
Trainer LAZ Puma
Rhein-Sieg

REGUPOL is the best running track surface that can be used in training and competitions. The force reduction values can be adjusted for sprinters and long-distance runners in such a way that both super training and competition performances can be achieved.

Michelle Mockenhaupt
Sprinter, LAZ Puma
Rhein-Sieg

We often experience peak stresses during training. It is therefore crucial that we are able to cope well with these stresses. This is possible with **REGUPOL tracks** as a running surface.

Tobias Schneider
Trainer Top Team
Thuringia

The fast tracks of **REGUPOL** offer the best conditions to achieve even the biggest goals.

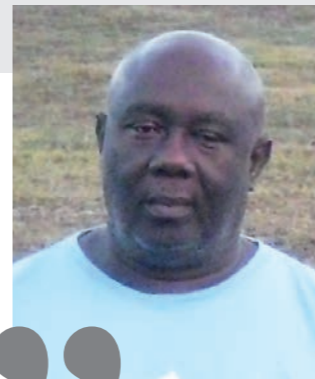

Julian Wagner
Sprinter in the Top
Team Thuringia

I love to bring out the best in myself.

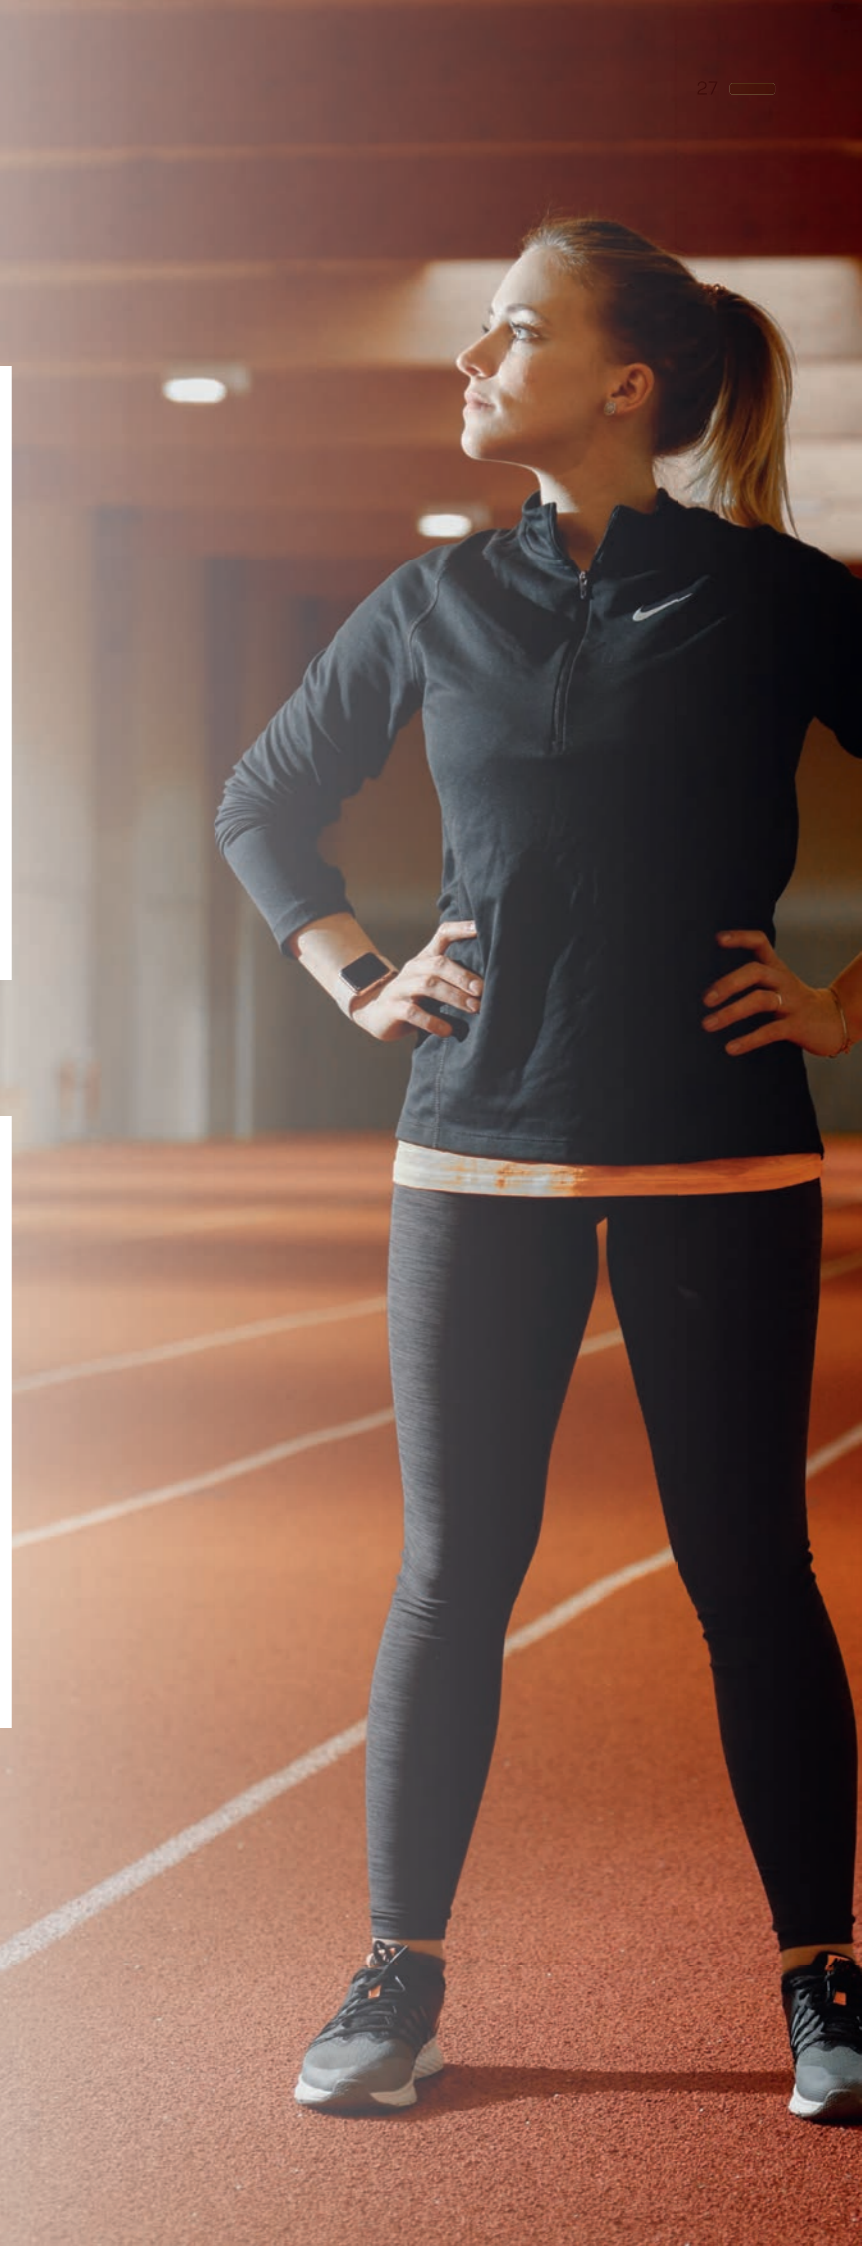

While training on **REGUPOL** I polish my skills for upcoming competitions.

Glen Mills
Head Coach and
Director of the Racers
Track Club (Jamaica)
and Coach of Usain Bolt

The track is great! We are very happy to have such an outstanding facility where we can do our daily training. None of my athletes has complained ever since we are using the **REGUPOL track** and we are making great progress!

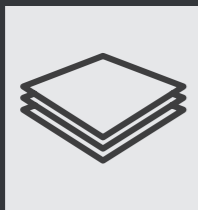

The Kaufland sports roof
The Kaufland sports roof is a wonderful example of the sustainable activation of roof space in urban areas. The often neglected "fifth facade" offers huge potential for accommodating sports facilities, playgrounds or day care centres in an urban environment and in a manner that saves both space and resources.

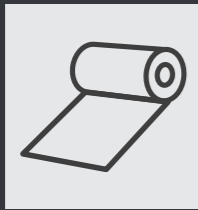

COLOURS & DECORS

FOR REGUPOL TRACKS AND COURT SURFACES

Systems

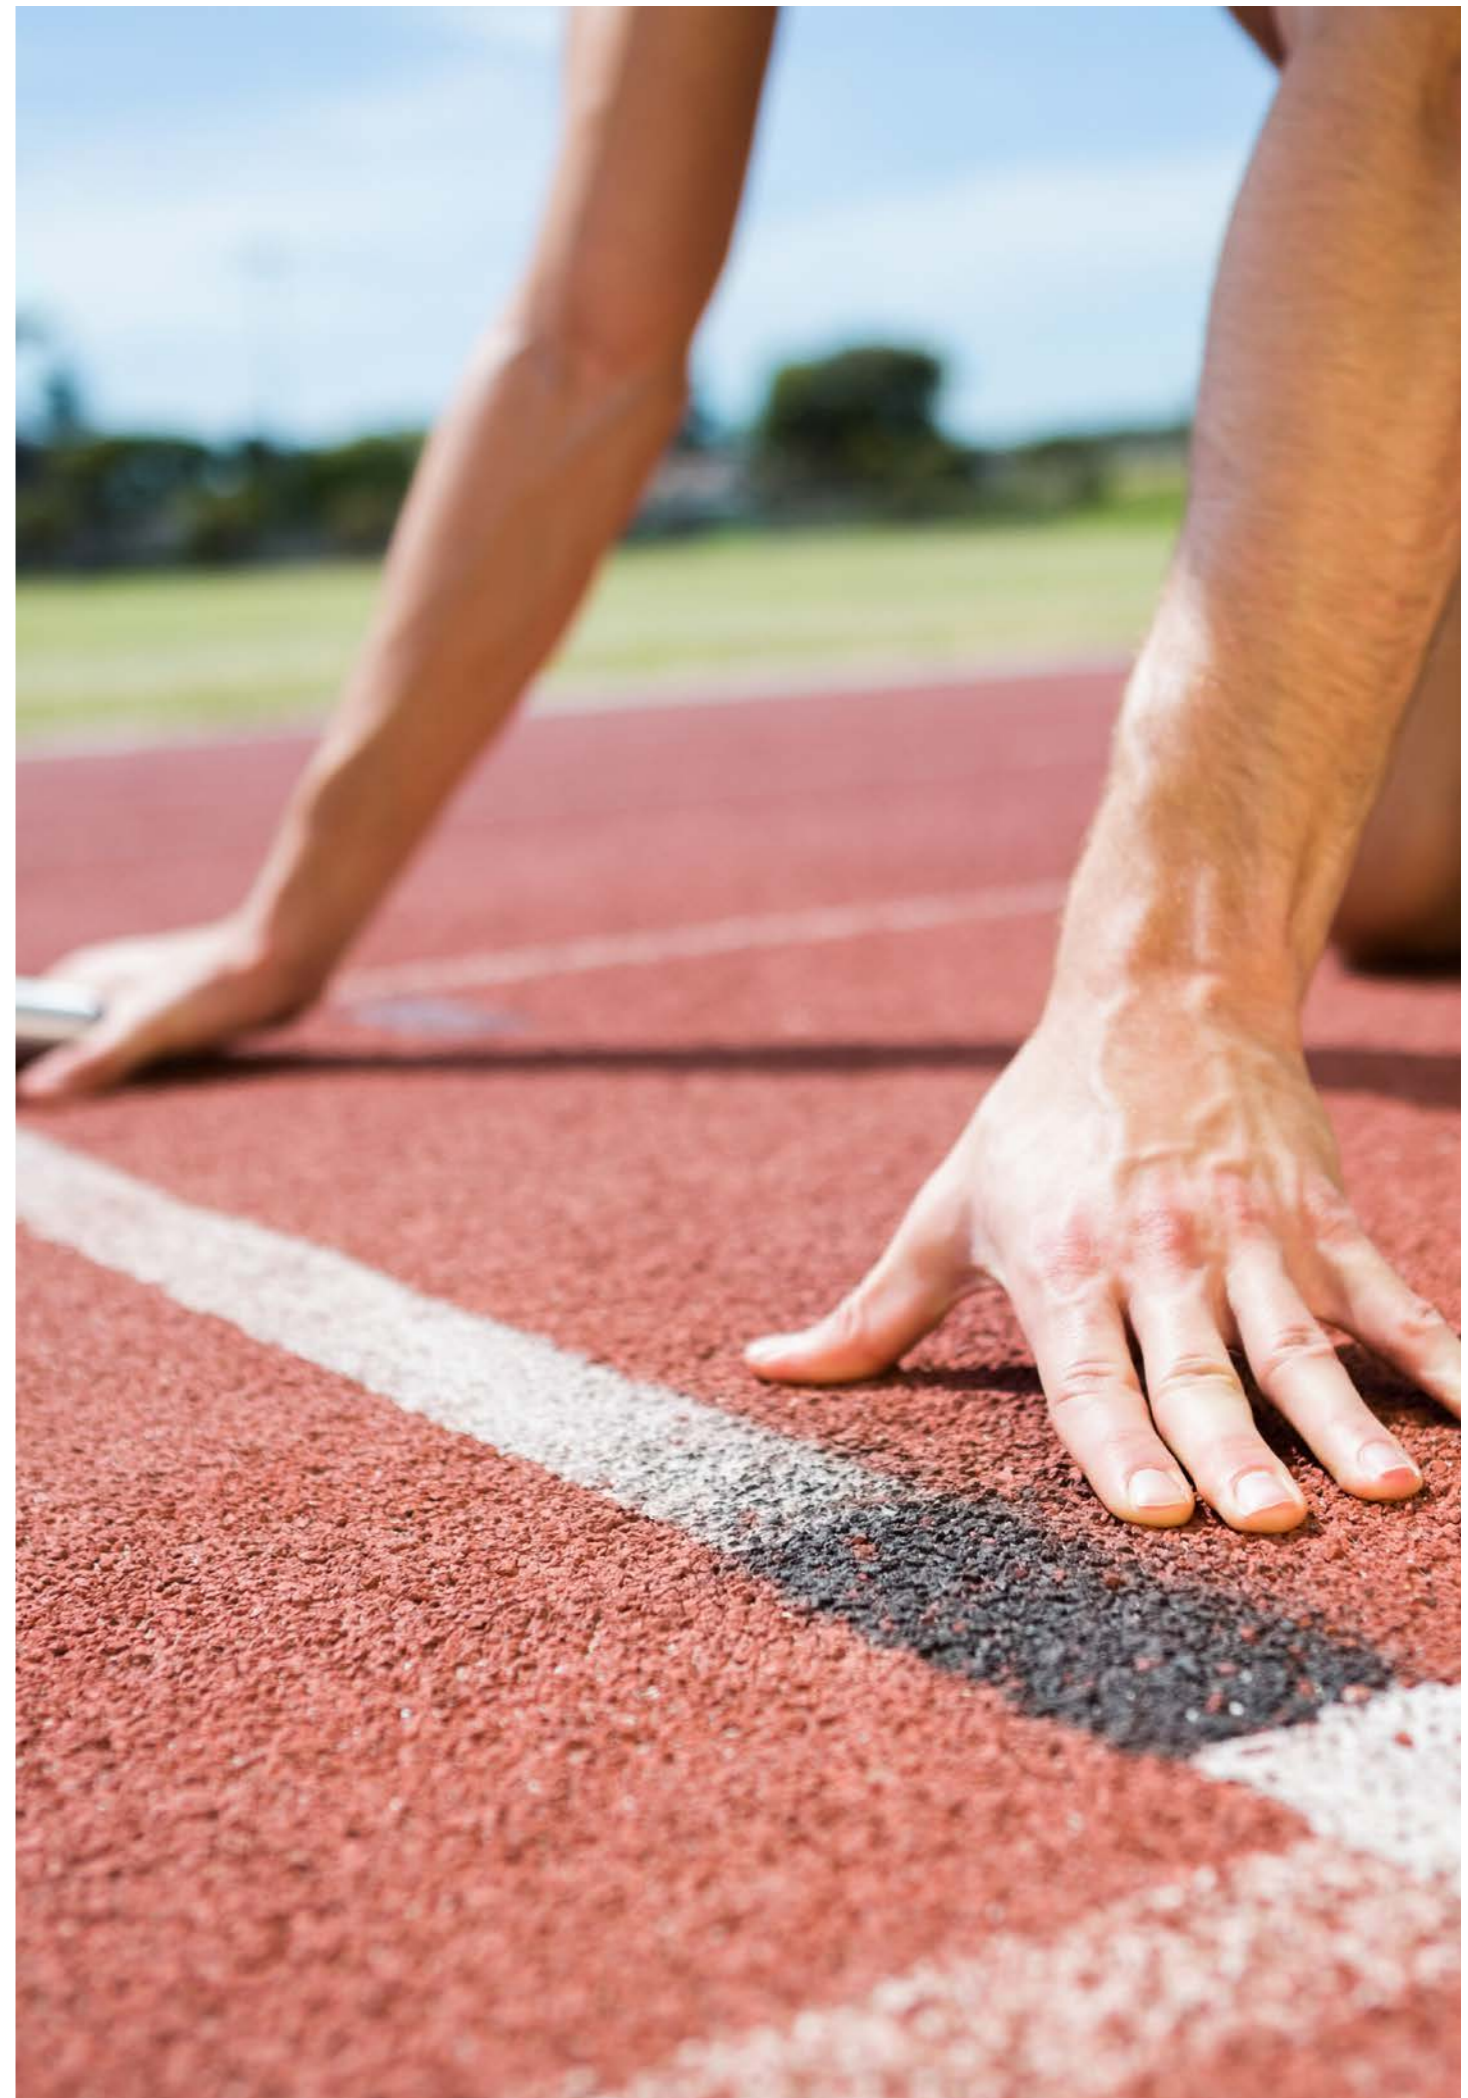

The surface of our robust sports floors is available in numerous colours. Multicoloured surfaces are also possible. Choose from our wide range of colours.

Rolls

REGUPOL sports floors, which we supply and install as rolls, are available in a variety of colours, too.

Which colour is best for your project? Thinking of a multicolour track? Test it yourself! With our **REGUPOL Flooring Designer** you can try out the colours virtually.

HOW DO YOU ENSURE SOLUTIONS ARE SIMPLE AND SAFE? **TOGETHER.**

REGUPOL has been in business for some 65 years and enjoys a worldwide reputation. As a customer, you want your supplier to provide you with the right solution backed by professional expertise. Creative, committed and highly motivated, our staff are here to do just that. As a result, our customers trust us – something that is attested to by our long-standing customer relationships.

Independent studies show that our staff – their expertise, professionalism and commitment – are one of the key reasons why our customers choose **REGUPOL** products. We are confident that our team can deliver the best solutions both today and tomorrow.

REGUPOL leads when it comes to quality and service With every thought, move and handshake, we strive to make sure that **REGUPOL** is globally synonymous with great products and a wide range of different industries. Not to mention excellent results, trust and high quality. In this regard, we see ourselves as a service and quality leader.

This aspiration is encapsulated in our brand proposition: "Good from the outset." We want customers to be sure they have chosen the right solution, regardless of which product they are working with. In fact, we strive to understand our customers and their needs in order to ensure that results are good from the outset and that our customers' expectations are exceeded. We can only perform well if we truly understand what our customers need and how we can help them achieve their goals. Only by doing this can our work make them feel they have made the right decision.

Our numerous references attest to our track record. We have installed our products in the Burj Khalifa in Dubai, in the Elbphilharmonie in Hamburg and in the Olympic Stadium in Berlin

**MADE IN
GERMANY**

Ask the expert to find the safest solution for your project: sport-outdoor@regupol.eu
phone +49 2751 803-131

HOW DO YOU BECOME MORE ENVIRONMENTALLY FRIENDLY? **TOGETHER.**

In the 1950s, polyurethane foam was new and very expensive. Instead of using all of the material produced, a considerable quantity was disposed. Our company was founded in 1954 to reprocess this wasted material into composite foam. Recycling is in our DNA.

How sustainable are REGUPOL products?

The circular economy works when recycled products compete directly with new products – we have been proving this for 65 years. **REGUPOL** products are typically made from 75% to 95% recycled materials, as are our sports mats. However **REGUFOAM** products are made from genuine raw materials.

What standards and legal requirements does REGUPOL meet?

Our company has been fully DIN EN 14001 certified since 1997 and will remain so. In addition, our products and mats comply with paragraph § 45 II No. 2 of the German draft bill on recycling management. We hope that the clearly formulated regulation will help make government action more sustainable.

What is sustainable about our human resources policy?

All our staff in Germany are paid according to a chemical industry-wide collective agreement. We are a recognised provider of insulation solutions and attach particular importance training, which is why a large number of trainees undergo their training in-house.

New Life: From the disposing to a recycling economy

REGUPOL is a founding member of the „Initiative NEW LIFE“ and commits to an optimal recycling economy, together with the other member corporations. Jointly, the members want to point out the advantages of recycling products from ELT (End-of-Life-Tires) and motivate to act sustainably. More about the initiative: www.initiative-new-life.de

REGUPOL's CO₂ balance sheet

In 2016, we partnered with the NRW Efficiency Agency to create a CO₂ location balance sheet, showing our total greenhouse gas emissions as CO₂ equivalents. We are on the right track. Find out more at www.regupol.com.

HOW DO YOU GET TO THE TOP? **TOGETHER.**

If you want to set the highest standards in construction, you will find a great partner in REGUPOL. In addition to our 65 year commitment to leadership, REGUPOL is the building material of choice for experts worldwide.

As a fourth-generation family business, **REGUPOL** currently employs 750 people at eleven locations. Our customers come from over 132 countries around the globe. For them, we recycle more than 90 000 tons of high-quality plastics every year into products that set standards.

Our brand ambassador Usain Bolt – the fastest man in the world – embodies our focus on performance through skill and will. Usain Bolt:

"I love Regupol running tracks. They are fast, they feel the same everywhere on the track and they have no joints."

Our extensive range of training courses is just as targeted. Comprising business vocations, day release and mechanical and plant engineering, the focus is very much on young people. They represent our future. We are proud of their success.

We've got it covered.
