

# THE OPTIMAL FLOORING SOLUTION FOR ALL AREAS IN **WINTER SPORTS**

Floors for mountain and  
base stations, ski depots,  
hospitality, ski shops,  
hotels and ice rinks

## Off to the slopes? – A safe bet!

**In winter, many people are attracted to the ski slopes, with skiing and snowboarding being the most popular sports. And no wonder, because when conditions restrict the possibilities for other outdoor sports, snowboards and skis are a welcome alternative. Many people spend their holidays in ski resorts, because, whether alone or in a group, skiing or snowboarding is great fun and ideal for building up both muscle strength and endurance.**

Every year, winter sports regions are happy to welcome countless sportsmen and women, families and holidaymakers. Shop owners, hoteliers, cable car operators and local restaurants all enjoy the benefits of this.

In highly frequented areas, sometimes varying from damp to wet, having the right flooring is enormously important for the safety of guests.

Our floors for alpine areas are slip-resistant even in wet conditions and are very pleasant and comfortable to walk on. They are robust, impact-resistant, durable and recyclable, making them extremely sustainable. With a variety of colours and decors, there are no limits to your design creativity.

Are you looking for an optimal floor covering for your ski shop, your ski depot, your mountain and valley stations or your catering area? In us you have found the right partner. We have the appropriate floor surfaces as well as consulting competence to recommend the most suitable floor covering for the requirements you want to meet.

**We've got it covered.**

# THIS IS WHAT YOU CAN FIND IN THE BROCHURE

- C** Hospitality and catering areas
- D** Base stations
- E** Ski depots
- F** Ski shops
- G** Ice rinks

# OUR FLOORS FOR MOUNTAIN AND BASE STATIONS

## Versatile:

Mountain and valley stations are usually hives of bustling activity. To make sure all guests and athletes get from A to B safely in winter, a non-slip floor surface is a great benefit. Especially in highly frequented zones such as gondola entrance and boarding areas, but also at ticket counters and on walkways, the floor covering is subject to extreme wear and tear, while the general noise level can get very high.

Our floors have good airborne sound properties, so that noise levels generated in such areas can be reduced considerably. Where there are lots of skiers, there is also a heavy burden on the floor surface from ski boots, skis and ski poles. Our floors are highly impact-resistant and can withstand such burdens with ease. In addition, a large number of floorings comply with the flame-retardant requirement for floor coverings in line with fire protection standards.

### Rolls

largely flame retardant | impact resistant | wide range of design options | available in 6 and 8 mm thickness

**Our products:** REGUPOL everroll alpine ultimate, REGUPOL everroll alpine classic

### Tiles

impact resistant | sound absorbing | slip resistant | easy installation | available in a range of thicknesses

**Our products:** REGUPOL everroll alpine MT, REGUPOL everroll alpine EL, REGUPOL everroll alpine SF (for walkways and on gratings)

## Any questions?

If you'd like to find out more about the fire behaviour of our floor surfaces, feel free to ask us:

winter-sports@regupol.eu

## OUR FLOORS FOR SKI SHOPS

### Inviting:

Anyone who doesn't want to rent skis and accessories can get themselves fully kitted out in ski shops. To give your customers that feel-good factor, a nice atmosphere is a great benefit: a pleasant, comfortable walking surface encourages customers to linger a little longer and look around in the shop. The sound-absorbing properties of our floors mean that it is never too noisy, no matter how many people are in the store. With our floors' diverse range of design options, you can plan your shops according to your own creativity.

Customers trying on and trying out heavy ski boots can always have a detrimental effect on your floor's sub-base. But we have a solution for this problem too, because our resilient floor surfaces also contribute considerably to the protection of the sub-floor.

### Rolls

resilient | impact sound reducing | comfortable | wide range of design options | available in 6 and 8 mm thickness

**Our products: REGUPOL everroll alpine ultimate, REGUPOL everroll alpine classic**

[www.sports.regupol.com](http://www.sports.regupol.com)  
and find out more about our  
products and service.

## OUR FLOORS FOR SKI DEPOTS

### Safe:

After an exhilarating day on the slopes, skiers and snowboarders then turn their thoughts to the evening's agenda. But first, it's important to make sure all the equipment is safely stored away. For this, ski depots provide the perfect solution. But what is it that makes a floor surface ideal for an area frequented by lots of people wearing wet and heavy ski boots?

Our winter sports floors can easily withstand the high loads in your ski depot because they are durable, as well as shock and impact resistant. The risk of slipping when things get wet is minimised by the slip resistance of our flooring. In changing areas especially, people not only walk around wearing ski boots, but also in socks. The advantage of our floor here: it is pleasantly warm underfoot and very comfortable.

### Rolls

durable | comfortable | slip resistant | impact resistant |  
available in 6 and 8 mm thickness

**Our products: REGUPOL everroll alpine ultimate,  
REGUPOL everroll alpine classic**

## OUR FLOORS FOR HOSPITALITY AND CATERING AREAS

Nice and cosy:

Those who need a break from the hustle and bustle on the slopes or have spent enough time out on their skis or snowboards often enjoy taking some time to wind down. Others go straight to après ski. There are usually plenty of different hospitality and catering establishments to choose from. However, as soon as they get inside with their wet boots and equipment, things can get dangerously slippery. Particularly on steps and stairs. Our floors minimise this risk. They offer slip resistance and underfoot stability, while also being pleasant to walk on. With our products, we can provide you with the right solution – for après ski pavilions, too.

Despite the slip-resistant surface, the floor is easy to clean. The material's typical sound-reducing properties mean it can contribute to keeping the noise inside the facilities at an acceptable level, especially at busy times. And if you have a certain design concept in mind for your catering area or you have very specific creative ideas, that's no problem at all! Our floor solutions can be laid in a variety of decors, so you can match them to your colour scheme.

### Rolls

comfortable | wide range of design options | slip-resistant | impact sound reducing | available in 6 and 8 mm thickness

**Our products:** REGUPOL everroll alpine ultimate, REGUPOL everroll alpine classic

### Tiles

slip-resistant | comfortable | wide range of design options | 30 mm thickness

**Our products:** REGUPOL everroll alpine EL (only for outdoor terraces)

### Already tried it?

Are you wondering which décor would best suit your catering area? Just try it out with our Flooring Designer. With this tool, you can lay our floors realistically in a virtual room.

## OUR FLOORS FOR HOTELS

### Comfortable:

In winter, hotel owners are happy to welcome skiers and snowboarders from all over the world. Why not offer your guests a special level of comfort in your ski cellars, workshops and in other communal areas? A comprehensive range of services combined with an exceptional interior is a good basis for success. Our floors with their versatile properties and a wide selection of decors are just what you need.

And when it comes to safety: our floors have anti-slip properties, which greatly minimise the risk of slipping even when wet. In addition, they are extremely durable and can withstand heavy loads and impact. This makes them highly sustainable.

#### Rolls

durable | resilient | slip-resistant | comfortable | available in 6 and 8 mm thickness

**Our products: REGUPOL everroll alpine ultimate, REGUPOL everroll alpine classic**

## OUR FLOORS FOR ICE RINKS

### Robust:

Ice rinks are places where young and old can meet. Regardless of whether the enthusiasts want to learn or improve their skating, play ice hockey or curling, the focus in ice rinks is on the fun of movement on ice. Sliding and gliding around is what you want to do on the ice itself, but not on the floors around the rink. Our REGUPOL everroll alpine flooring makes sure that no one slips or slides unless they really want to.

As borders around the actual ice surface, on walkways or in box office foyers and changing facilities, they provide the slip resistance and underfoot stability that visitors need. They are robust and resilient. Our flooring for indoor ice rinks is designed to make walking on the various surfaces a very pleasant experience. As things can get very noisy in ice rinks, especially in the highly frequented areas, the acoustic properties of our floors make sure noise levels don't get out of control.

### Rolls

resilient | slip-resistant | comfortable | available in 10 and 12 mm thickness

**Our products: REGUPOL everroll alpine ultimate, REGUPOL everroll alpine classic**

# COLOURS & DECORS

## FOR REGUPOL EVERROLL ALPINE FLOORS

### Rolls

With over 40 colours and decors to choose from, you can design the areas in your winter sports facility according to your very own wishes. Our REGUPOL floor surfaces enable you to use the colours of your corporate design or select different coloured decors to separate the different areas.

### Tiles

We have a great variety of standard colours in our range. Depending on the order volume, we can also supply other decor variations. If you are also laying rolls, you can match the colours of your tiles to the rolls.

We'll be happy to send you a sample in the colour of your choice or manufacture your floor covering in a special colour on request.

Feel free to contact us: [winter-sports@regupol.eu](mailto:winter-sports@regupol.eu)

# DESIGNS & ACCESSORIES

# HOW DO YOU ENSURE SOLUTIONS ARE SIMPLE AND SAFE? TOGETHER.

**REGUPOL has been in business for some 65 years and enjoys a worldwide reputation. As a customer, you want your supplier to provide you with the right solution backed by professional expertise. Creative, committed and highly motivated, our staff are here to do just that. As a result, our customers trust us – something that is attested to by our long-standing customer relationships.**

Independent studies show that our staff – their expertise, professionalism and commitment – are one of the key reasons why our customers choose **REGUPOL** products. We are confident that our team can deliver the best solutions both today and tomorrow.

**REGUPOL leads when it comes to quality and service**  
With every thought, move and handshake, we strive to make sure that **REGUPOL** is globally synonymous with great products and a wide range of different industries. Not to mention excellent results, trust and high quality. In this regard, we see ourselves as a service and quality leader.

This aspiration is encapsulated in our brand proposition: "Good from the outset." We want customers to be sure they have chosen the right solution, regardless of which product they are working with. In fact, we strive to understand our customers and their needs in order to ensure that results are good from the outset and that our customers' expectations are exceeded. We can only perform well if we truly understand what our customers need and how we can help them achieve their goals. Only by doing this can our work make them feel they have made the right decision.

**Our numerous references attest to our track record. We have installed our products in the Burj Khalifa in Dubai, in the Elbphilharmonie in Hamburg and in the Olympic Stadium in Berlin**

Ask the experts about the best solution for your project.

# HOW DO YOU BECOME MORE ENVIRONMENTALLY FRIENDLY? **TOGETHER.**

**In the 1950s, polyurethane foam was new and very expensive. Instead of using all of the material produced, a considerable quantity was disposed. Our company was founded in 1954 to reprocess this wasted material into composite foam. Recycling is in our DNA.**

#### **How sustainable are REGUPOL products?**

The circular economy works when recycled products compete directly with new products – we have been proving this for 65 years. **REGUPOL** products are typically made from 75% to 95% recycled materials, as are our sports mats. However **REGUFOAM** products are made from genuine raw materials.

#### **What standards and legal requirements does REGUPOL meet?**

Our company has been fully DIN EN 14001 certified since 1997 and will remain so. In addition, our products and mats comply with paragraph § 45 II No. 2 of the German draft bill on recycling management. We hope that the clearly formulated regulation will help make government action more sustainable.

#### **What is sustainable about our human resources policy?**

All our staff in Germany are paid according to a chemical industry-wide collective agreement. We are a recognised provider of insulation solutions and attach particular importance to training, which is why a large number of trainees undergo their training in-house.

#### **New Life: From the disposing to a recycling economy**

**REGUPOL** is a founding member of the „Initiative NEW LIFE“ and commits to an optimal recycling economy, together with the other member corporations. Jointly, the members want to point out the advantages of recycling products from ELT (End-of-Life-Tires) and motivate to act sustainably. More about the initiative: [www.initiative-new-life.de](http://www.initiative-new-life.de)

#### **REGUPOL's CO<sub>2</sub> balance sheet**

In 2016, we partnered with the NRW Efficiency Agency to create a CO<sub>2</sub> location balance sheet, showing our total greenhouse gas emissions as CO<sub>2</sub> equivalents. We are on the right track. Find out more at [www.regupol.com](http://www.regupol.com).

## HOW DO YOU GET TO THE TOP? **TOGETHER.**

**If you want to set the highest standards in construction, you will find a great partner in REGUPOL. In addition to our 65 year commitment to leadership, REGUPOL is the building material of choice for experts worldwide.**

As a fourth-generation family business, **REGUPOL** currently employs 750 people at eleven locations. Our customers come from over 132 countries around the globe. For them, we recycle more than 90 000 tons of high-quality plastics every year into products that set standards.

Our brand ambassador Usain Bolt – the fastest man in the world – embodies our focus on performance through skill and will. Usain Bolt:

**"I love Regupol running tracks. They are fast, they feel the same everywhere on the track and they have no joints."**

Our extensive range of training courses is just as targeted. Comprising business vocations, day release and mechanical and plant engineering, the focus is very much on young people. They represent our future. We are proud of their success.

**We've got it covered.**
